It is provided "as is" without warranty of any kind, whether express or implied. Under no circumstances will the Government of British Columbia be liable to any person or business entity for any direct, indirect, special, incidental, consequential, or other damages based on any use of this information.

NOTES		LEGEND	KEY MAP	REFERENCES	REVISIONS	SURVEYED	Province of British Columbia	Ministry of Environment	WATER MANAGEMENT BRANCH	FILE No.															
1) This map has been prepared from field surveys carried out by the Surveys Sub-Section, Planning and Surveys Section, Inventory and Engineering Branch, and photogrammetric and cadastral mapping, compiled by the Surveys and Mapping Branch of the Ministry of Environment, Province of British Columbia.	d) Contours between Elevation 342.53 and Elevation 345.0, were drawn from cross-sections obtained by field surveys. The location of cross-section lines was established by photo-identification. Minimum contour interval 0.5 metre.	<p>--- 342.53 --- FLOOD PLAIN LIMIT ELEVATION IN METRES</p> <p>--- 342.53 --- EDGE OF UNDERWATER SHELF</p> <p>--- 342.53 --- NORMAL HIGH WATER OPERATING LEVEL</p> <p>50m 0 50 100 150m SCALE 1:2500</p>	SEE DRAWING NO. 4567A-76. 2) SURVEY DATA: a) Horizontal control was established by traverse using Hewlett-Packard Distance Meter, Model 3800B. b) Subaqueous contours were drawn from depths established by Raytheon Depth Recorder, Model DE-719B. c) Position control for bathymetry was maintained by simultaneous fixes from theodolites which were set over coordinated shore stations.	e) The survey was carried out during the period August-September, 1979.																								
	3) DATUM: a) The horizontal control is based on Integrated Survey Monument No's. 75H2855, 75H2466, 6437, 6483, 6419, and 6470, Kelowna, established by the Field Operations Division, Surveys and Mapping Branch. b) Coordinates are Universal Transverse Mercator, Zone 11, Central Meridian 117°.	c) Elevations are based on Canadian Geodetic Datum.																							
		4) FIELD BOOKS: Survey data are recorded in Field Book No's. 2212 P1, 2212 L1 to 2213 L3, inclusive, and 2212 I.																							
		5) MAPPING: The area above contour 345.0 was mapped under Project No's. 72-57 and 79-1017-0 at a scale of 1:5000, using second order photogrammetric equipment.
