Subject: Juliet/Coquihalla pass project

Mr. John Bones

We are the property owners at 6605 Monck Park Road (Nicola Lakeshore Estate), Merritt. We are aware that you are conducting an environmental study on Juliet/ Coquihalla pass project. I can not emphasize enough the tremendous positive effect this project will have on the whole region And benefits that will bring to the communities in the area. With the approval process in place, I am sure that all necessary steps will be taken to ensure minimal effect on the environment That will satisfy all parties involve. We therefore are in full support of the project and would like to see it come to reality.

Thank you

Mohammad Zamanpour
