

Table of Contents

	Page
1. Introduction.....	1
1.1 Background.....	1
1.2 Response to Terms of Reference	2
1.3 Project Summary.....	2
1.3.1 Overview.....	2
1.3.2 Relevant Project Phases and Activities.....	4
2. Scope of Assessment.....	4
2.1 Issues Scoping.....	4
2.2 Study Area Boundaries	4
2.3 Temporal Boundaries.....	5
2.4 Impact Assessment Methodology & Criteria Definition	6
3. Project Setting.....	9
3.1 Baseline Data Collection Methods.....	9
3.1.1 Hydrology	9
3.1.2 Surface Water Quality	10
3.1.3 Fisheries and Aquatic Resources	10
3.1.4 Soils	11
3.1.5 Vegetation and Wildlife.....	12
3.2 Baseline Conditions	12
3.2.1 Hydrology	12
3.2.2 Surface Water Quality	21
3.2.3 Fisheries and Aquatic Resources	25
3.2.4 Soils	27
3.2.5 Vegetation.....	29
3.2.6 Wildlife	32
4. Impact Assessment.....	36
4.1 Hydrology	36
4.1.1 Assessment of Project Impacts	36
4.1.2 Mitigation	38
4.1.3 Residual Effects Analysis	39
4.1.4 Prediction Confidence.....	39
4.2 Water Quality.....	39
4.2.1 Assessment of Project Impacts	39
4.2.2 Mitigation	46
4.2.3 Residual Effects Analysis	47
4.2.4 Prediction Confidence.....	48
4.3 Fisheries and Aquatic Resources	48
4.3.1 Assessment of Project Impacts	48
4.3.2 Mitigation	50
4.3.3 Residual Effects Analysis	51
4.3.4 Prediction Confidence.....	51

4.4	Soils	51
4.4.1	Assessment of Project Impacts	51
4.4.2	Mitigation	51
4.4.3	Residual Effects Analysis	52
4.4.4	Prediction Confidence.....	52
4.5	Vegetation.....	53
4.5.1	Assessment of Project Impacts	53
4.5.2	Mitigation	54
4.5.3	Residual Effects Analysis	55
4.5.4	Prediction Confidence.....	55
4.6	Wildlife.....	55
4.6.1	Assessment of Project Impacts	55
4.6.2	Mitigation	58
4.6.3	Residual Effects Analysis	60
4.6.4	Prediction Confidence.....	60
5.	Monitoring and Follow-Up.....	61
6.	Conclusions.....	62
7.	References.....	65

List of Tables

Table 1-1	Response to Terms of Reference	3
Table 2-1	Spatial scope of the HVC landfill project for each of the six environmental components considered in the present report.....	5
Table 2-2	Temporal scope of the HVC landfill project.....	6
Table 2-3	Residual Effect Criteria	8
Table 2-4	Level of Impact after Mitigation Measures	9
Table 3-1	Estimated natural and existing monthly discharge generated upslope of the proposed landfill.	16
Table 3-2	Estimated total annual maximum instantaneous discharge upslope of the proposed landfill.	17
Table 3-3	Estimated 10-year return period 7-day average low flows for the watershed upslope of the proposed landfill.....	17
Table 3-4	Estimated natural monthly discharge of Witches Brook near the mouth.....	17
Table 3-5	Estimated existing monthly discharge of Witches Brook near the mouth	18
Table 3-6	Estimated natural monthly discharge of Guichon Creek near the mouth	18
Table 3-7	Estimated existing monthly discharge of Guichon Creek near the mouth.....	19
Table 3-8	Estimated natural monthly discharge of Pukaist Creek at the mouth	19
Table 3-9	Estimated existing monthly discharge of Pukaist Creek at the mouth.....	20

Table 3-10	Water quality EMS data summary: Witches Brook near the Mouth (1972-2005).....	22
Table 3-11	Water quality EMS data summary: Pukaist Creek below the dam (1990-2005).	25
Table 3-12	Soils description adapted from Soils Map of the Ashcroft Area, 92 I/11, Edition 3, 1976	28
Table 3-13	Estimated extent of soils and existing disturbed area under the operational footprint of the landfill.....	29
Table 3-14	Common vegetation found in various habitats within the project area.....	30
Table 3-15	Main habitat types identified within the project area.....	31
Table 3-16	Rare and/or endangered plants that potentially occur in the project area.	32
Table 3-17	Wildlife observed at the proposed landfill site during the field reconnaissance May 9, 2006.	33
Table 3-18	Rare and/or endangered wildlife that may occur within the project area.	35
Table 4-1	Predicted Leachate Quality Before and After Treatment compared with Witches Brook and Pukaist Creek.	42
Table 4-2	Predicted Changes in Selected Water Quality Variables in Witches Brook after Valley Pit is full (with worst-case landfill leakage rate of 656 m ³ /year).	45
Table 4-3	Ratings for residual effects analysis on surface water quality.	48
Table 4-4	Ratings for residual effects analysis on the fisheries and aquatic resources.....	51
Table 4-5	Ratings for residual effects analysis on soils	52
Table 4-6	Ratings for residual effects analysis on vegetation.....	55
Table 4-7	Ratings for residual effects analysis on wildlife	60
