Subject: Public Comment Period for Mount Milligan-Terrane Metals Project

Hello My name is Ernie Minkowitz , I have lived in Fort St.James for 8 years and have been employed at Fort Machine Works since I moved to town. Being the only machine shop in town you can understand how beneficial having Mount Milligan open up . With the down turn of the logging industry opening Mt. Milligan would defiantly diversify our community's economy.

As far as I have seen Terrane Metals has made every effort to involve and keep everyone informed on how the project is being handled , there mine plan has been well thought out. Detail to environmental concerns I feel have been answered and there concerns for the well being of this community my home and my source of employment have been outstanding. So in short I fully support the Mt. Milligan Terrane Metals Project .

Sincerely Ernie Minkowitz
