

# BRITISH COLUMBIA HUNTING REGULATIONS SYNOPSIS 1975/1976

*This is not the law, but only a summary of the law. For full details contact:*

**FISH & WILDLIFE BRANCH, PARLIAMENT BUILDINGS, VICTORIA, BRITISH COLUMBIA**

**Department of Recreation & Conservation, Hon. Jack Radford, Minister — Lloyd Brooks, Deputy-Minister**

## FOLLOW THESE SIMPLE STEPS TO GET TO KNOW FAST ALL YOU NEED TO KNOW

- 1** Read the general information on pages 1, 2, 3, 4. This information applies to all of British Columbia and to all species of game animals.
- 2** Look at the map at the left and select the region in which you want to go hunting.
- 3** Turn to the pages with the large detailed map of that region and select the management unit (MU) or units of your choice.
- 4** Select the species that you wish to hunt and look under "OPEN SEASONS" for the open season and bag limit, pertaining to that particular species. The miniature map will quickly give you the required information for that species.
- 5** Now, check under "NO SHOOTING AREAS" for any restrictions for the use of firearms in that MU. and also check out any other reference given under "OPEN SEASONS".

### A SPECIAL NOTE FOR THE "OLD HANDS"

This synopsis is entirely new in set-up. There are two reasons for this change:

1. The regional boundaries have changed and the old Management **Areas** have been replaced by smaller Management **Units** (MU.'s) in order to allow us a more detailed type of wildlife management.
2. We have simplified the organization of the synopsis in order to make it much easier for you to find the required information even in this more detailed form.

Take a moment to familiarize yourself with this new synopsis and you will quickly discover the improvements.

## OPEN SEASONS

For the purpose of defining the open seasons for big game, small game and game birds the Province is divided into Management Units (MU's) being B.C. Reg. 415/75.

The open seasons for the hunting of each species of game are shown by Regional maps on the following pages. All dates mentioned thereon are inclusive. **Unless seasons are indicated there are no open seasons on any game animal.**

Where open seasons do not apply to the entire Management Unit reference is given to detailed maps showing the area and describing the pertinent regulations.

The open seasons declared by these Regulations shall cease to be in effect in any area covered by a closure order issued by the Forest Service of the Department of Lands, Forests and Water Resources and shall continue to be ineffective during the period covered by such forest closure order.

Unless otherwise indicated or amended all dates in these Regulations apply to the period of July 1, 1975 to June 30, 1976.

Dates for Hunting Seasons may be changed by order of the Minister only in unusual conditions. Such changes will be given local publicity.

These hunting regulations do not apply in any National Parks.

## SPECIAL RESTRICTIONS

The Fish & Wildlife Branch will be operating numerous **Checking Stations** throughout the Province. **It is mandatory for all hunters to stop at all checking stations and report.**

Report any tagged bird or mammal to the Fish & Wildlife Branch, Parliament Buildings, Victoria, B.C.

Hunters are reminded that certain species of Game **must** be checked by an officer of the Fish & Wildlife Branch for purposes of taking measurements or parts of the animal required for management. Those species covered by such compulsory checks are indicated in the following Regional schedules or below.

All Mountain Sheep, Grizzly Bear and Cougar taken in the Province by hunting or other means (i.e. road kill) **must** be inspected by a Conservation Officer, Wildlife Biologist, Wildlife Technician or Officials at a Game Check Station of the Fish and Wildlife Branch for purposes of taking measurements or parts of the animal required for management (i.e. tooth) within ten (10) days of the kill, except:

(1) persons who gain the written approval from a Conservation Officer, Wildlife Biologist, Wildlife Technician or Officials at a Game Check Station of the Fish and Wildlife Branch prior to hunting can submit such animals for inspection within ten (10) days after the last day of the hunt and;

(2) persons who use the services of a licenced guide for the purposes of killing a **Grizzly Bear** or **Sheep** can submit such Grizzly Bear or Sheep for inspection within ten (10) days after the last day of the continuous season in which the animal was taken (i.e. Fall killed Grizzly Bear must be submitted after the end of the Fall season).

## Mountain Sheep

The skull and horns of all Mountain Sheep (i.e. Dall, Stone, Rocky Mountain and California) must be submitted for measurement.

## Bag Limits & Possession Limits

Season bag limits for big and small game and daily bag limits for game birds for each Management Unit are shown in the Regional schedules on the following pages, directly following the date of the open season. These bag limits are

printed in bold type and placed in between brackets, e.g. **(5)**

Where special restrictions exist as to species, sex or age, they are shown on detailed maps.

Where no bag limit is in effect, the abbreviation **NBL** appears.

An entry such as "**2(1)**" in the schedules for ungulates means the bag limit is two animals of that species in the aggregate, one of which may be antlerless.

In the case of Upland Game Birds and Migratory Game Birds an entry such as **10(20)** in the schedules means the bag limit is 10 birds per day while the possession limit is 20.

*Subject to exceptions in the Regional schedules or below, the maximum number of each species of small game and big game which a hunter may take in the Province in one licence year (the season bag limit) is one (1);*

(a) **Deer:** The maximum number which a hunter may take in one licence year is two **(2)**;

(b) **Black Bear:** The maximum number which a hunter may take in one licence year is two **(2)**;

(c) **Cougar:** The maximum number which a hunter may take in one licence year is two **(2)**;

(d) **Wolf:** The maximum number which a hunter may take in one licence year is three **(3)**;

We therefore recommend each hunter keep a record of his hunts as indicated below.

------	-------------------------	----------------	------------------	------------------------------------	---------------------------

#### Maps

The Department of Recreation and Conservation and the Department of Lands, Forests and Water Resources are planning to produce and distribute for sale a Provincial atlas which will depict new Administrative and Management Unit boundaries.

Detailed maps of various parts of the Province may also be obtained at a small fee from your Government Agent or the Director, Surveys and Mapping Branch, Dept. of Lands, Forests and Water Resources, Victoria, B.C.

This type of hunting is at this time restricted to residents of B.C.

In order to obtain a special licence to participate in a limited entry hunting season hunters are required to make application, on an official form, direct to the Fish and Wildlife Branch, Parliament Buildings, Victoria, B.C. A public draw is made to decide on issuances of licences.

# OBSERVE RECORD REPORT

## FISH & WILDLIFE VIOLATIONS

The unethical hunter is a threat to both wildlife and the hunting recreation. Regulations are set for the protection of wildlife populations, and those who violate these regulations damage the wildlife resources of our province. The first result is a loss of game to the legitimate hunter. But other wildlife users suffer as well, and often tend to blame all hunters for the actions of a few. In this way, the unethical hunter can damage the public image of hunting, resulting in a loss as well of hunting opportunities.

The Conservation Officer is responsible for the enforcement of Wildlife Regulations, but the job is an enormous one. British Columbia is a large and rugged province, and many hunting activities take place in remote areas. This means that offences may be committed, and damage done, without the offenders always being apprehended. When this happens, both wildlife and the sport of hunting suffer the consequences.

An important goal of enforcement is the prevention of violations *before* the damage is done. This is where you can help. The watchful eyes of sportsmen throughout the province can provide a strong deterrent to potential violators and stop wildlife offences before they happen.

What can you do?

### Observe, Record, Report

Remember: Do NOT confront a suspected violator. You cannot make a "citizens arrest" or seize private property as evidence. Only a Conservation Officer or a constable is legally authorized to do this. Instead:

#### Observe:

To be aware of an offence taking place, you must familiarize yourself with current regulations. Some common violations are:

- 1) Killing game during a closed season.
  - 2) Killing female or young animals during a male only season.
  - 3) Exceeding the daily bag limit of game, game birds or game fish.
  - 4) Angling in closed areas.
  - 5) Property damage (shooting powerline insulators, road signs, industrial equipment).
  - 6) Night hunting or pitlamping.
- Details may be found in the hunting Regulations synopsis published each year.

#### Record:

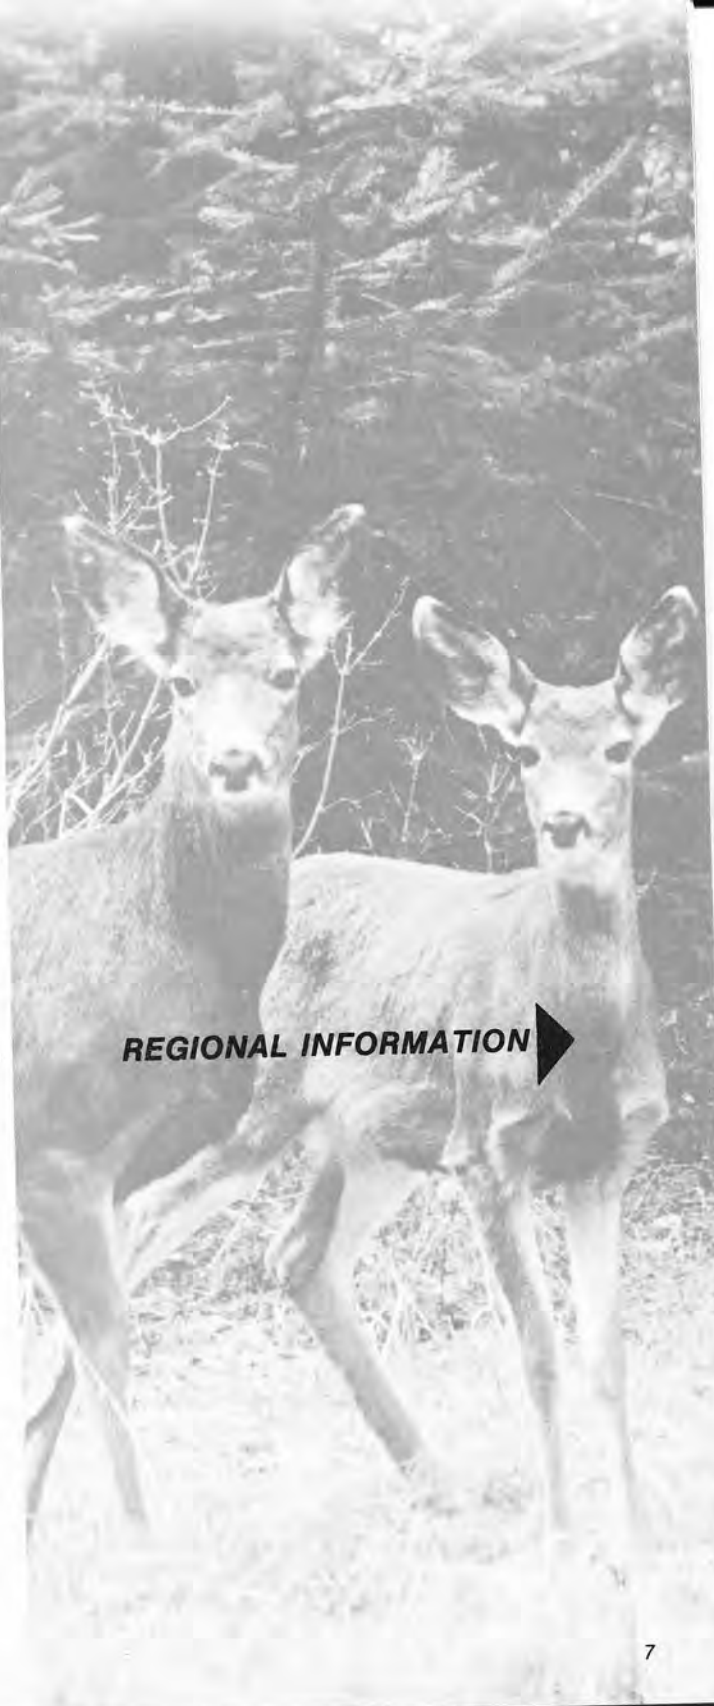

Carry a pencil and record your observations in note form as soon as you can. Photographs provide an extremely useful addition to these observations if they can be taken without alarming the violator. Take note of any features that will be of use to the enforcement officer in his investigation. These include:

- 1) Time, date, location and weather conditions.
- 2) Identity of violator or accurate description (size, clothing, hair colour, etc.)
- 3) Identity or description of companions.
- 4) Vehicle licence and description.
- 5) Evidence at the scene (head or viscera of animal, empty cartridges, etc.)
- 6) Actions of the violator(s) (number of shots, etc.)

#### Report:

Your observations as *soon as possible* to the nearest Conservation Officer or to police. The longer you wait, the more difficult it will be to investigate the violation. Always give your name, address and local phone to verify that your intentions are serious.
