IMPORTANT REGULATION NOTICES 1982/83

This is not a résumé of all changes in the regulations for this year. Major changes from last year's regulations are shown in coloured type, in the following pages.

1. A new deer species licencing system has been introduced this year, employing two different types of deer licence.
 - The special area deer licence is valid only in the Special deer hunting areas of the Queen Charlotte Islands (M.U.'s 6-12 and 6-13) and the Saanich Peninsula (situated in M.U. 1-1).

- The regular deer licence, valid in all other areas of the province, consists of a 3 part card to which validating deer licence stamps are affixed.
2. Hunters should take note of the new definition for full curl thinhorn ram mountain sheep. See Definitions, page 3.
 3. The Provincial Cache Creek checking station will not operate during the 1982-83 season.
 4. A new Wildlife Act may be implemented in 1982 which will effect changes to the hunting regulations, particularly with regard to "Definitions" and Licence Requirements.

Habitat Conservation Fund

The \$3.00 surcharge on all hunting, trapping and guiding licences provides revenue to be used to enhance habitat for wildlife. In 1981-82, 15 enhancement projects were completed with an allocation of over \$400,000. Enhancement projects underway include the use of prescribed fire to rejuvenate habitat for bighorn sheep, elk, deer and moose; wetland improvement to establish productive breeding and resting areas for waterfowl and other wetland species; and thinning techniques to increase forage for elk. New projects have been initiated in 1982-83.

These habitat enhancement projects for wildlife complement enhancement projects for fisheries, and the acquisition of habitat for both fish and wildlife.

OPEN SEASONS

For the purpose of defining the open seasons for big game, small game and game birds the Province is divided into Management Units (M.U.'s) being B.C. Reg. 415/75. For the purpose of these hunting regulations, A and B parts of a Management Unit shall be considered as a single unit except for Units 6-17A and 6-17B which are considered as separate units. The open seasons for the hunting of each species of game are shown in Regional schedules on the following pages. All dates mentioned therein are inclusive.

Unless seasons are indicated there are no open seasons on any game animal. Where open seasons do not apply to the entire Management Unit reference is given to detailed maps showing the area and describing the pertinent regulations. The open seasons declared by these Regulations shall cease to be in effect in any area covered by a closure order issued by the Forest Service of the Ministry of Forests and shall continue to be ineffective during the period covered by such forest closure order. Dates for Hunting Seasons may be changed by order of the Minister only in unusual conditions. Such changes will be given local publicity.

BAG LIMITS AND POSSESSION LIMITS

Season bag limits for big and small game and daily bag limits for game birds for each Management Unit are shown in the Regional schedules on the following pages directly following the date of the open season.

Where special restrictions exist as to species, sex or age, they are shown on detailed maps.

These bag limits are printed in **bold type**, e.g. **3**.

Where no bag limit is in effect, the abbreviation **NBL** appears.

An entry such as "**2(1)**" for ungulates in the schedules means the season bag limit is two animals of that species in the aggregate, one of which may be antlerless.

An entry such as **2** for Big Game (except ungulates) and Small Game in the schedules means the season bag limit and possession limit is two animals.

An entry such as **10(20)** for Upland Game Birds and Migratory Game Birds in the schedules means the daily bag limit is **10** while the possession limit is **20**.

Subject to exceptions in the Regional schedules or below, the maximum number of each species of small game and big game which a hunter may take in the Province in one licence year (the season bag limit) is one. Provincial Bag Limits may be achieved by hunting in one or more regions provided the Regional Bag Limits are not exceeded.

(1) **Deer**: the maximum number which a hunter may take in one licence year is two of which one may be antlerless.

NOTE: The Provincial bag limit of two for deer may only be exceeded up to the Regional bag limit by hunting in Region 1, on Texada Island in Region 2, in M.U.'s 6-12 and 6-13 in Region 6 and in the Limited Entry antlerless deer season in Region 8.

(2) **Black Bear**: The maximum number which a hunter may take in one licence year is two (2).

NOTE: For Black Bear, the Provincial Bag Limit may be exceeded in portions of Regions 3, 7 and 8.

(3) **Cougar**: The maximum number which a hunter may take in one licence year is two (2).

NOTE: For Cougar, the Provincial Bag Limit may be exceeded in a portion of Region 3.

(4) **Wolf**: The maximum number which a hunter may take in one licence year is three (3).

NOTE: For wolf, the provincial bag limit may be exceeded in Regions 6 and 7.

(5) **Coyote, Raccoon, Skunk and Fox**: There is no maximum number which a hunter may take in one licence year. (No bag limit - **NBL**).

(6) **Wolverine and Lynx**: The maximum number which a hunter may take in one licence year is one (1) of each species.

(7) **Bobcat**: The maximum number which a hunter may take in one licence year (the season bag limit) is five (5).

No Person while in the field either actually hunting or returning from hunting shall have in his possession game birds in excess of three times the daily limit. For possession limits on migratory game birds see Regional schedules.

The daily bag limit for all Geese in aggregate is 5, possession (10).

It is lawful for a person to retrieve a dead or injured game animal with the assistance of a power boat provided no person in the power boat is in possession of a loaded firearm. No person shall kill, cripple or wound game without making all reasonable effort to retrieve and include it in his bag limit. The retrieved game shall be killed immediately and included in the hunter's bag limit.

Recreational Atlas

The Ministry of Environment has produced a Provincial Recreational Atlas which depicts the Administrative and Management Unit boundaries.

Special Note: Hunters should note that the "M.U. 4-21" designation on Page 23 of the B.C. Recreational Atlas (1st edition) is in error and should be "M.U. 4-27".

Topographic Maps

Detailed maps of various parts of the Province may be obtained from a Government Agent or the Director, Surveys and Mapping Branch, Ministry of Environment, Victoria, B.C.

Bear Meat

To prevent possible infection by Trichinosis, bear meat should not be consumed unless it is thoroughly cooked or adequately frozen for a period of time.

Park Restrictions

National Parks

Hunting and the transportation of an "unsealed" firearm is prohibited in all National Parks.

Provincial Parks and Recreation Areas

Hunting and/or the discharge of firearms is not permitted in any Class C Park, Nature Conservancy Areas, nor in the majority of Class A or B Parks and Recreation Areas. Only those Parks and Recreation Areas listed in the following regional summaries are open to hunting and/or the discharge of firearms. These Parks and Recreation Areas are only open during the legal hunting season as described in the regional summaries.

When a park or recreation area is closed to hunting or there is no open season for any species, the possession as well as the discharge of a

GENERAL INFORMATION APPLYING TO ALL OF BRITISH COLUMBIA

firearm is prohibited by Park Act Regulation, except by Letter of Authority, Park Use Permit, or when the firearm is carried unloaded in a vehicle that is in transit to or from a lawful hunting area.

Ecological Reserves

Hunting, trapping or fishing is not permitted in any Ecological Reserve in B.C. A complete list of Reserves is available from: Ecological Reserves Division, Ministry of Lands, Parks and Housing, Parliament Buildings, Victoria, V8V 1X4.

Municipalities and Regional Districts

Most municipalities have local by-laws restricting and controlling the use of firearms within their boundaries. Consult Municipal Clerks and Regional Districts for details of closures. The Ministry of Environment publishes the Fraser Valley Special Area brochure which depicts Provincial and Municipal firearm regulations in the Fraser Valley.

LIMITED ENTRY HUNTING

Announcements on Limited Entry Hunting Seasons have been made through the news media. Hunters are reminded that announcements are generally given in May of each year. Further information is available at all Ministry of Environment offices. Hunters should note that special licence restrictions apply within those areas designated as Limited Entry Hunting Areas. Please check regional schedules in the following pages.

HARVEST DATA CARD

Hunters are requested to fill out and mail to the Ministry of Environment, a lower front leaf from deer, moose, and elk taken in several Regions of the province. Special Harvest Data Card envelopes (postage paid) will be provided at the time of licence purchase or will be mailed with Limited Entry Hunting licences.

RECORD OF HUNT

Many hunters are interested in recording their hunting experiences. The Ministry of Environment is also interested in such information and each year mails out Hunter questionnaires and requires compulsory checks and reports on certain harvested game. We, therefore, recommend each hunter keep a record of his hunts as indicated below, and that he keep this brochure until April 1983 as an aid to completing his Hunter Questionnaire.

Help Maintain Our Wildlife Resources

OBSERVE RECORD REPORT

Fish & Wildlife violations

The unethical hunter is a threat to both wildlife and the hunting recreation. Regulations are set for the protection of wildlife populations, and those who violate these regulations damage the wildlife resources of our province. The first result is a loss of game to the legitimate hunter. But other wildlife users suffer as well, and often tend to blame all hunters for the actions of a few. In this way, the unethical hunter can damage the public image of hunting, resulting in a loss as well of hunting opportunities.

The Conservation Officer is responsible for the enforcement of Wildlife Regulations, but the job is an enormous one. British Columbia is a large and rugged province, and many hunting activities take place in remote areas. This means that offences may be committed, and damage done, without the offenders always being apprehended. When this happens, both wildlife and the sport of hunting suffer the consequences.

An important goal of enforcement is the prevention of violations *before* the damage is done. This is where you can help. The watchful eyes of sportsmen throughout the province can provide a strong deterrent to potential violators and stop wildlife offences before they happen.

What can you do?

Observe, Record, Report

Remember: Do NOT confront a suspected violator. You cannot make a "citizen's arrest" or seize private property as evidence. Only a Conservation Officer or a constable is legally authorized to do this. Instead:

Observe:

Familiarize yourself with current regulations. Some common violations are:

- (1) Killing game during a closed season.
- (2) Killing female or young animals during a male only season.
- (3) Exceeding the daily bag limit.
- (4) Angling in closed areas.
- (5) Property damage (shooting powerline insulators, road signs, industrial equipment).
- (6) Night hunting or pitlamping.

Record:

Carry a pencil and record your observations in note form as soon as you can. Photographs provide an extremely useful addition to these observations if they can be taken without alarming the violator. Take note of any features that will be of use to the enforcement officer in his investigation. These include:

- (1) Time, date, location and weather conditions.
- (2) Identity or accurate description (size, clothing, hair colour, etc.) of the violator and his companions.

- (3) Vehicle licence and description.
- (4) Evidence at the scene (head or viscera of animal, empty cartridges, etc.).
- (5) Action of the violator(s) (number of shots, etc.).

Report:

As soon as possible to the nearest Conservation Officer or to police or telephone Zenith 2235 toll-free. The longer you wait, the more difficult it will be to investigate the violation.

Always give your name, address and phone number to verify that your intentions are serious.

OBSERVE, RECORD AND REPORT is being developed in co-operation with the B.C. WILDLIFE FEDERATION

The B.C. Wildlife Federation pays rewards up to \$500 for information leading to the conviction of persons doing wanton damage to wildlife, wildlife habitat, or the property of companies or individuals who allow hunters and fishermen access to property they control.

GAME CHECK STATIONS

Each year the Ministry of Environment operates Game Check stations on well travelled roads in order to contact a large number of sportsmen returning from hunting. All hunters, with or without game, are required by law to stop and report. Sportsmen will be asked about their hunting activity, including the location and species hunted, time spent hunting and success. Animals taken by hunters will be checked to determine sex, age and condition. Biological samples may be taken, e.g., a lower front tooth. The collected data is used to set hunting seasons and to effect good land management in cooperation with other private and government agencies.

Sportsmen are encouraged to ask questions about, or comment on, hunting regulations and wildlife management. We need to know your requirements. At certain locations, sportsmen are checked to determine their compliance with wildlife and firearms laws.

The Game Check usually takes only a few minutes, but provides valuable information that will be used for many years in developing better wildlife management. Please assist us in protecting your wildlife and your recreational opportunities.

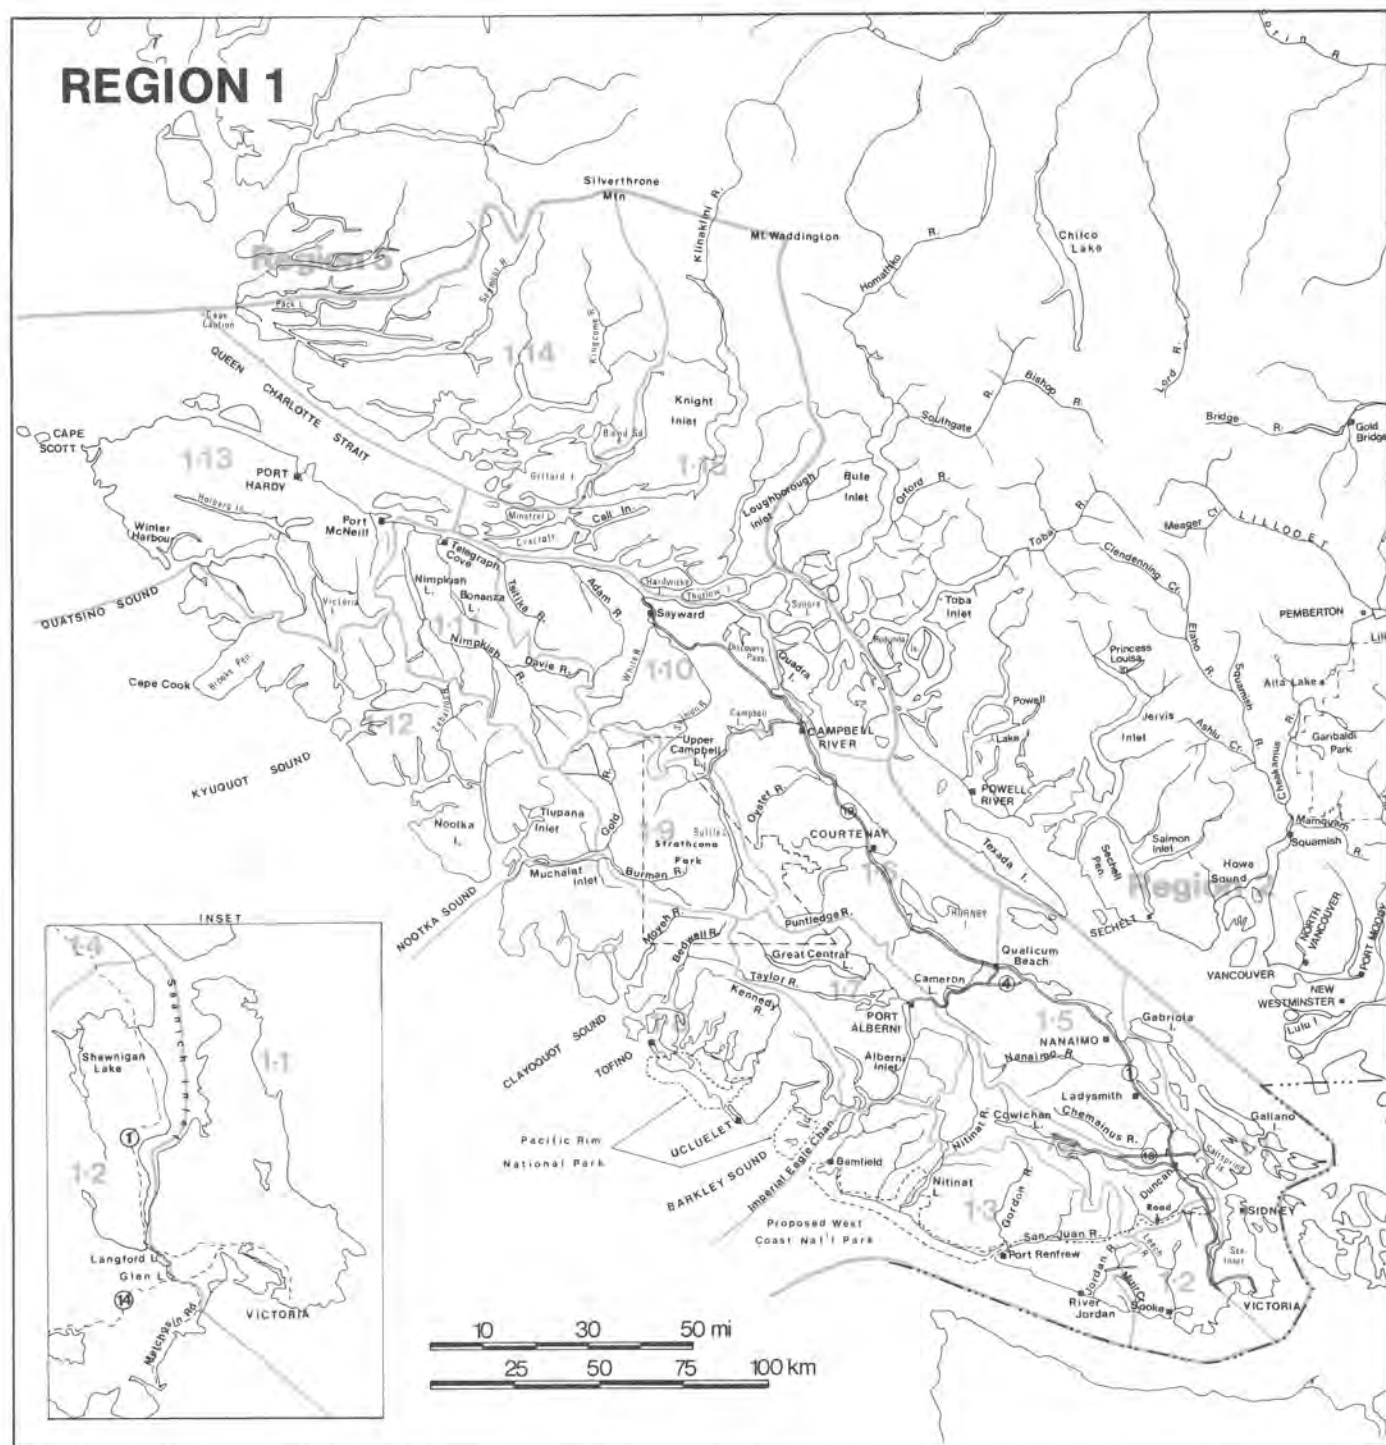

Hunters are reminded that the onus is on them to clearly identify the species and sex of their target before shooting.

Every person who has a firearm in his possession or under his control shall exercise due care for the safety of other persons and property.

Point firearms at game only and never use a scope sighted rifle to observe another human being.

The Ministry of Environment would appreciate the reporting of any tagged bird or mammal to the Fish and Wildlife Branch, Parliament Buildings, Victoria, B.C.
