

June 2012 Itcha Ilgachuz Caribou Post-Calving Survey: Caribou Observations, and Survey Flight Route. Relocations of collared caribou not detected during survey are also plotted.

* Comparison of 2012 survey area (flight route) and 2009 survey area shows the Coglistiko Meadows north of the Itcha Mountains were not surveyed in 2012, but were surveyed in 2009. Collared caribou groups were utilizing these areas in 2012.
