

November 2, 2007

The TSM project (BAPID 4514) was reviewed for FIA completion upon request by Dawn Scully (MOFR). The review was carried out by Sid Tsang, P.Geo. (MOE) and consisted of checking the file folders for standard deliverables as well as opening the coverage (E00) files and spot checking for completeness and confirm that RISC standards were followed.

BAPID 4514

Project Area: Messiter

FIA # 4594002

A project completion certificate or sign-off letter by the Terrain Professional is missing in the Reports_Etc folder. Some codes in the T4514J.E00 file are entered in non-standard format, incorrect, or missing and have been fixed by the reviewer. Polygon data appears to be entered in standard format in T4514R.E00 file.

Folder Structure	OK
------------------	----

Reports_Etc folder:

Terrain Professional project completion certificate or sign-off letter	Missing as per Section 2.4.2 in the Standard for Digital Terrain Data Capture - Errata 2006-1-LBIP <i>Sign-off letters or Project Completion Certificates are required from each of the following: a) the responsible Terrain Professional and b) the GIS supervisor or project manager from the vendor providing digital data capture services for the project.
