

NOTE:

This information is considered historical as it represents channel conditions and configuration at the time of the survey only. User must accept responsibility of ensuring that the accuracy and completeness of provided data is suitable for the needs of the project or study. It is provided "as is" without warranty of any kind, whether express or implied. Under no circumstances will the Government of British Columbia be liable to any person or business entity for any direct, indirect, special, incidental, consequential, or other damages based on any use of this information.

KEY MAP
SCALE 1:250000

NOTES

1) This map has been prepared from field surveys carried out by the Surveys Subsection, Planning and Surveys Section, Water Management Branch, and photogrammetric mapping compiled by the Surveys and Resources Mapping Branch of the Ministry of Environment, Province of British Columbia.

2) SURVEYS DATA:

a) Basic horizontal control was propagated from Provincial network stations by E.D.M. and Tellurometer traverse. Positional integrity was checked by periodic rays to network stations.

b) Cross sections were obtained by stadia, graduated rope or simultaneous fixes from theodolites which were set over coordinated shore stations. Water depths were measured by level rod or by Raytheon Depth Recorder, Model DE-719B.

c) Survey was carried out in July 1968 and 1981.

3) DATUM:

a) Horizontal control is based on Station "Sal" Brass Bolt No. 2433, and Station "Four Mile", Brass Bolt No. 2420, established by the Surveys and Mapping Branch in 1958.

b) Coordinates are Universal Transverse Mercator, Zone 9, Central Meridian 129°.

c) Elevations are in metres and are referred to Bench Mark Nos. 1206-J, 1210-J, 1211-J, 1213-J, 1216-J, 1217-J, 1219-J, 1221-J and 1222-J, Bella Coola--Hagensborg--Firvale, established by the Geodetic Survey of Canada in 1958.

4) FIELD BOOKS:

Survey data are recorded in Field Book Nos. 1891-A to G, 2299-F1 to F4, 2299-L1, 2299-L2 and 2299-11.

5) AIR PHOTOGRAPHS:

B.C. 82040: Frames 60-76, 100-112 and 118-133.
Date of photography: August 18, 1982.
Photo scale: Approx. 1:20 000.

6) MAPPING:

Area was mapped under Project No. 83-101T at a scale of 1:5 000 using second order photogrammetric equipment.

7) REFERENCE MONUMENTS:

	NORTHING	EASTING	ELEVATION:
W.R.S.Mon.257	5 803 304.588	657 151.978	26.073
W.R.S.Mon.281	5 804 529.467	660 801.743	28.377
W.R.S.Mon.282	5 803 982.171	657 719.056	15.265
81 HAW 075			22.493
81 HAW 076			15.956
Amprodome(cone)	5 812 839.173	672 732.648	
Mon.257→Amprodome	N58°32'08"E	18 266.516	
Mon.281→Amprodome	N55°08'36"E	14 539.522	
Mon.282→Amprodome	N59°27'44"E	17 431.421	

Distances between Monuments and Amprodome as shown are GRID or PROJECTION Distances.

LEGEND

- △ TRIANGULATION STATION
- ◉ REFERENCE MONUMENT (P.CON or P.ROCK)
- ▣ 50 000 HORIZ. CONTROL POINT
- • 60 000 VERT. CONTROL POINT
- ○⟶ AIR PHOTO CENTER
- ROAD, TRAIL, CREEK, CREEK INTERMITTENT, SWAMP
- BOUNDARIES: BASIN, SUB BASIN
