NOTES

1) This plan has been prepared by the Ministry of Environment, Lands and Parks, Province of British Columbia.

2) SURVEY DATA:
a) FIsta surveys were carried out by the Technical Support Section, Water Management Division.
b) Horizontal control was established by EDM traverse using a total station theodolite.
c) Vertical control was established by differential levelling and by reciprocal height traversing using a total station theodolite.
d) Cross sections and road profiles were obtained using a total station theodolite and a semi total station on a minute reading theodolite.
e) Elk River cross sections 1 to 19 and 21 to 25 were located by map identification in the field.

3) DATUM:
a) Horizontal control for cross sections is based on posts 77H6717, 77H6718 and 77H6720 established by the Surveys and Resource Mapping Branch, as listed in the Data Bank in May 1991.
b) Coordinates are Universal Transverse Mercator, Zone 11, Central Meridian 117 degrees, NAD 27.
c) Vertical control is based on bench marks 79C149, 79C151, 79C152, 79C155 and 115D established by Geodetic Survey of Canada; bench marks 85HA016, 85HA017, 85HN015, 85HN016 and post 77H6717 established by the Surveys and Resource Mapping Branch, as listed in Data Bank in May 1991 and bench mark WSS 699 established by the Water Management Division in 1975 under Project 75F-3 from Geodetic Survey of Canada bench mark 115D.
Note: Elevations of Dominion Topographic Survey post 70-82G-1952 and post 71-82G-1952 are the results of Water Management Division Level Network Adjustment in September 1991.
d) Elevations are in metres and are referred to Canadian Geodetic Datum.

4) MAPPING:
Compilation of British Columbia Geographic System Mapsheets produced by the Surveys and Resource Mapping Branch under Mapping Project 85-037T, scale 1:5000
Topographic Mapsheet Nos. 82G.076.1.4, 82G.076.2.1, 82G.076.2.2, 82G.076.2.3, 82G.076.2.4, 82G.076.4.1, 82G.076.4.3, 82G.086.2.1, 82G.086.2.3, 82G.086.4.3.

5) AIR PHOTOGRAPHS:
ROLL NO. : BCB5011
Frames : 227-254
Date of Photography: June 16, 1985
Photo Scale : 1:16,000 approximately

6) FIELD BOOKS:
Survey data are recorded on Disc labelled 2589D and Field Book No. 2589F.

7) H.W.M. = Locations of high water marks established by the Special Projects Section on June 21 and 22, 1991.

8) REFERENCE POINTS:

Water Management Division		B.C. Control Survey	
Bench Mark	Elevation	Post	Elevation
BM 91HAW039	1131.467	Post 77H6717	1160.855
BM 91HAW041	1139.912
