MEMORANDUM

To: Mr. J. H. Doughty-Davies, Head
Planning Sub-Section

Date: October 4, 1982
Your File: 0305030-6
Our File: D.R. 2.1A.3

Attention: Mr. R. W. Nichols

Re: High Water Marks - Slocan River

Submitted herewith is the package, assembled by Region 4, which depicts and describes high water marks attained by the Slocan River in June 1982.

Elevations for the marks and for the applicable natural boundaries were established by a ground survey conducted by B. R. Schubert, Eng. Tech., on September 28, 1982.

Mr. Schubert has computed and assigned metric elevations to each of the points except the one shown in photos 16 and 20, which was not recovered.

R. G. Fernyhough, Head
Surveys Sub-Section
