SUMMARY

GREEN RIVER @ Green Lake Outlet Project No. 84 FDC-2

The survey was carried out with a four man crew during May 1&2 1984. The information obtainedconsisted of 6 cross sections including picking up water level,natural boundary and centre of river at every section. Photographs were taken of the left and right banks for the first 4 sections after which the camera was accidentally submerged in the river spoiling the remaining pictures.

Elevations are referred to G.S.C. Datum ,derived from Water Resources Monument 1695 established by this section in 1977 under Project # 77-FDC-1 (Fitzsimmons Creek).The level run included a W.L. tranfer..

A stadia traverse was run connecting all cross section and was tied to the legal boundary of D.L. 3363 at Highway 99 Right of Way.
