Moose hunters in the Central Interior (M.A. Nos. 14, 16, 18, 19, 20, 21, 22, 23, 26, 27 and 28) and in the East Kootenay (M.A. No. 11) are requested to turn in the lower jaws of their moose to Cache Creek Checking Station or the nearest Conservation Officer. From the lower jaw the age of the animal can be determined and this information is used in the scientific management of your wildlife.

The Fish & Wildlife Branch may in the future introduce recreational hunting of lynx.

The Fish & Wildlife Branch may in the future initiate any sheep seasons in specific areas and with limited numbers of hunters with the object of improving the management of Bighorn Sheep.

The Fish & Wildlife Branch may in the future introduce a tag-licence on Cougar.

A number of big game trapping and tagging operations are underway in the Province to obtain information about game populations. All sportsmen are requested to report the taking or sighting of tagged animals to the nearest conservation officer or staff member of the Fish and Wildlife Branch. Most animals are tagged with metal ear tags, and in some cases have been tagged with plastic streamers or collars. These should be returned to the Fish and Wildlife Branch if the animal is found dead or has been taken during the hunting season.

From the wings of upland birds and waterfowl it is possible to sex and age the birds. The information is then analysed and gives some scientific insight into our game bird populations. Bird hunters are requested to leave one wing on all birds and turn them in to Cache Creek or the nearest Conservation Officer.

Everyone is requested to report recovery of any banded bird, surrendering the band, furnishing particulars of species and sex of bird, and place where and when taken.

Hunters are requested by the Fish and Wildlife Branch to refrain from killing female bears when it is known that they are accompanied by cubs. Do not shoot, take, or molest bear cubs. Remember it is unlawful to pick up or keep bear cubs and deer fawns.

Exercise care with firearms.

Detailed maps may be obtained at a reasonable fee from your Government Agent or the Director, Surveys & Mapping Branch, Dept. of Lands, Forests & Water Resources, Victoria, B.C.
