## ADVISORY SECTION

Wildlife Branch reserves the right to remove nuisance animals from Crown land, whether or not the Crown land in question is under a trap-line registration.

Registered trap-line tenure within Provincial parks is subject to the provisions of the *Park Act* and Park Regulations.

Trapping within ecological reserves is prohibited.

You are reminded that under sections 231 and 402 of the *Criminal Code* of Canada it is an offence for anyone to wilfully cause or permit to be caused unnecessary pain, suffering, or injury to an animal or injury to any person.

As approved humane traps become available, trapping regulations restricting or prohibiting the use of certain other traps in the capture of various animals, will be brought into effect.

Any raw pelt or skin of a fur-bearing animal shipped out of the Province must be accompanied by a Royalty Fur Export Permit.

Any trapper accidentally capturing a weasel on the Queen Charlotte Islands (M.U.'s 6-12 and 6-13) is requested to forward such weasels to the Ministry of Environment Office.

### MODIFICATION OF LEG-HOLD TRAPS

A modified leg-hold trap is a leg-hold trap with padded or offset jaws.

Trappers can modify existing leg-hold traps to comply with the trapping regulations. Standard coil spring or long-spring can be modified by the following methods:

1. The jaws may be ground to allow a  $\frac{1}{16}$  to  $\frac{1}{32}$  inch space between the jaws when close, or
2. A type of shim may be fastened between the jaws (near the sides of the jaws) causing the trap to remain open  $\frac{1}{16}$  to  $\frac{1}{32}$  inch when in the "closed" position.

Various wolf trapping sets are illustrated in the Canadian Trappers' Manual on pages 7, 7A and 7B.

Some existing leg-hold traps may be modified by replacing standard jaws with offset jaws or padded jaws and replacement level. Replacement levers are required with padded jaws as standard levers will not close the trap properly.

### MESSAGE TO THE TRAPPER

Beginning October 1, 1985 the ASSIGNED TRAPPER NUMBER (A.T.N.) is required by the Fur Trader when exporting fur, paying fur royalties and when selling fur.

Please remember to write your A.T.N. on a slip of paper or letter when shipping your fur to a fur trader. This will prevent delays in getting your furs to market and cash returns to you.

If you lose the ASSIGNED TRAPPER NUMBER CARD, please contact the address below for a duplicate:
